

Painting the eight
lucky signs with
children

You will need to collect sieves, bowls, pestal and mortars, containers.

First sieve the raw pigment to get rid of the vegetation and rocks

Next grind the pigment in a pestle and mortar

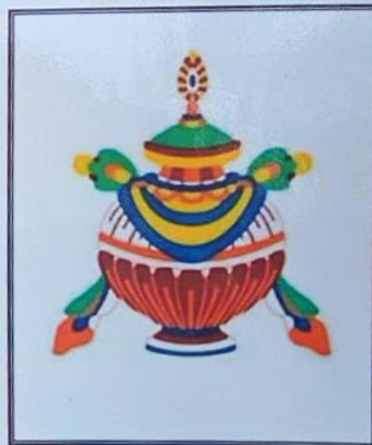

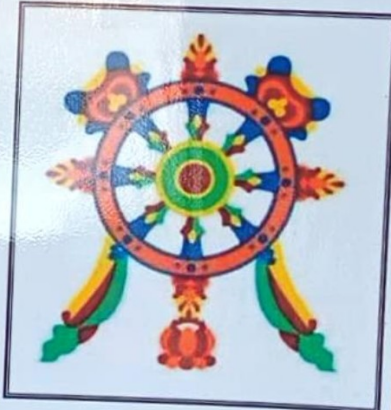

Keep the pigment colors separately.

Some pigment in a binder ready to use. Some dry for later use.

Introducing Eight Lucky
Signs.

Images of the eight lucky signs for the
children to copy.

Making Soil Pigment

Painting from Pigment
